

Tiamat Token White Paper

Legal Disclaimer

Nothing in this White Paper is an offer to sell, or the solicitation of an offer to buy, any tokens. Tiamat is publishing this White Paper solely to receive feedback and comments from the public. If and when Tiamat offers for sale any tokens (or a Simple Agreement for Future Tokens), it will do so through official and definitive offering documents, including a disclosure document and risk factors. Those definitive documents are expected to include an updated version of this White Paper, which may differ significantly from the current version. If and when Tiamat makes such an offering in Europe, the United States, the United Kingdom, and Asia, the offering likely will be available solely to accredited investors. Nothing in this White Paper should be treated or read as a guarantee or promise of how Tiamat's business or the tokens will develop or of the utility or value of the tokens. This White Paper outlines current plans, which could change at its discretion, and the success of which will depend on many factors outside Tiamat's control, including market-based factors and factors within the data and cryptocurrency industries, among others. Any statements about future events are based solely on Tiamat's analysis of the issues described in this White Paper. That analysis may prove to be incorrect.

1. Name of the Cryptocurrency

Tiamat

2. Symbol/Ticker : TMT

3. Project Description:

Tiamat token will be the governance token of the Lottery platform, used to participate weekly, fill the Jackpots, and retrieve the winnings. By doing this, we are giving Tiamat a real and tangible utility that will guarantee a significant weekly trading volume and a balanced demand and supply in the market. This approach makes Tiamat appealing to investors worldwide, potentially creating opportunities for additional utility beyond the lottery ecosystem. We also plan to release our blockchain in the future, featuring unprecedented innovations.

Tiamat Lottery is an integral part of our project—an innovative lottery entirely created on the blockchain, where the transparency of jackpots and winnings are stored and available on the transaction database. Classic lottery systems are designed to generate income for the lottery itself, having an extremely low rate of winnings, and mostly focusing on a small number of individuals. Tiamat Lottery aims to change this outdated system. Our five innovative lottery systems are designed to offer significant winning opportunities to all participants. Tiamat Lottery will guarantee 1,322+ winners each week. The winnings amount will be determined by the amount of Tiamat played in each system, ensuring a weekly return rate in winnings of 90% of the total jackpot amount. 10% of the total jackpot amount will be directed to the company for maintenance and profits, with 10% of that amount used to create offers and events to attract more clients to our lottery platform. More clients mean higher jackpots and higher winnings for everyone. Tiamat Lottery is designed as a system by the people for the people.

4. Problems Our Cryptocurrency Solves

- **Low Chances of Winning in Traditional Lotteries:** Our lottery ensures guaranteed chances of winning for 1,322 players each week, with 90% of the funds played returned as winnings.
- **Scalability and Carbon Footprint:** We aim to create a scalable cryptocurrency with minimal environmental impact.
- **Accessibility:** We provide a user-friendly portal for everyone aged 18 and over, with plans to create our own wallet.
- **Transaction Efficiency:** Leveraging the Solana ecosystem, our token can process a large number of transactions swiftly.

5. Unique Features

5.1 Consensus Algorithm

Proof of Stake (PoS): Validation is based on token ownership.

5.2 Transaction Speed and Capacity

- **Transactions Per Second (TPS):** Between 1,504 and 64,000 derived from our main blockchain where we created our token.
 - **Tiamat TPS:** 691 transactions per second
 - **Solana Max TPS:** 1,790 transactions per second
 - **Solana Max Theoretical TPS:** 65,000 transactions per second

6. Technology Used

- **Blockchain:** Solana
- **Consensus Algorithm:** Proof of Stake (PoS)

7. Tokenomics

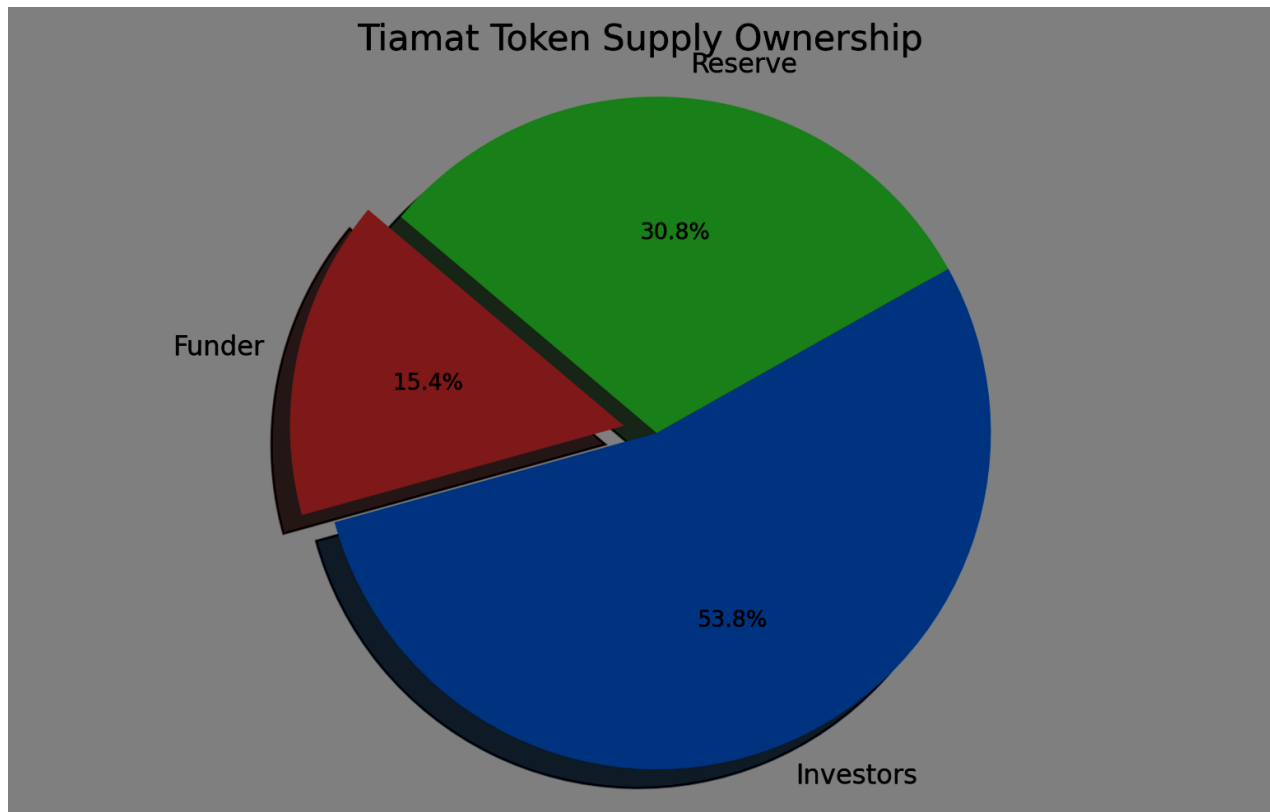

Total Supply of the Token

650,000,000 Tiamat Tokens

Token Distribution

- **Founder:** 100,000,000 tokens
- **Investors:** 350,000,000 tokens
- **Reserve:** 200,000,000 tokens

Our token is a utility token with five decimals. Part of the tokens from the jackpot (10%) will be used for liquidity (up to 25%), token burn (25%), and maintenance and profit (50%).

8. Functionality within the Ecosystem

- **Currency:** Tokens act as a medium of exchange within the ecosystem, similar to traditional currency, and will be used for internal lottery transactions.
- **Utility Token:** Provides users with access to a product or service within the ecosystem.

Specific Use Cases

- **Payments and Transactions:** Tokens facilitate payments and transactions both within and outside the blockchain ecosystem. We aim to enable our users to use our tokens for purchasing physical goods of all types.

9. Roadmap

- **Q1: Private Sale and Market Research:** Identify potential markets and promote the currency.
- **Q2: Pre-sale, Heavy Marketing, and Community Building:** Prepare the project and highlight the potential of the cryptocurrency.
- **Q3: Acquire Random Number Generator, International License, and Build Lottery Website:** Obtain necessary licenses and tools for creating the lottery.
- **Q4: ICO, Team Expansion, and Partnerships with Exchanges:** Acquire partnerships, expand the team, and develop user-friendly crypto and lottery solutions.
- **Q5: Initiate Tiamat Wallet Development:** Create a wallet with special functionalities to prevent fund loss.
- **Q6: Launch Token and Lottery Website, Online and Offline Marketing:** Implement effective marketing strategies with influencers and offline advertising.
- **Q7: Develop Tiamat Lottery App:** Create apps for Apple Store and Google Play.
- **Q8: Construct Tiamat Exchange:** Build our own exchange to facilitate transactions and add value to our cryptocurrency.

10. Team

- **Joseph Aresti:** Chief Executive Officer, Chief Financial Officer, Influencer Marketing Specialist
- **Tananescu Dragos:** Chief Operating Officer, Vice President, Chief Human Resources Officer, Business Development Manager
- **Adrian Micu:** IT Support Specialist Manager, Administrative Assistant, Operations Coordinator
- **Rashmi :** IT Support Specialist, Web Analytics Specialist
- **Lara Cennet :** Social Media Specialist, Graphic Designer
- **Tolga :** System Administrator, Advertising Manager, NFT dev
- **Olivian :** Public Relations Manager
- **Marco:** Event Creator, ADS Specialist
- **Matteo:** Marketing Automation Specialist, E-Commerce Marketing Manager
- **Michele:** Brand Manager

11. Partnerships

Partnerships will be publicly announced as they are finalized. We are currently in negotiations and

will keep you updated.

12. Regulation and Compliance

- **Privacy and Data Security:** Implementing measures to protect against data leaks, cyber attacks, and malicious activities. Given the new and booming nature of cryptocurrency, we strive to ensure security.
- **KYC and AML Compliance:** Implement KYC and AML measures to prevent illegal activities, such as money laundering, terrorist financing, tax evasion, and fraud. KYC will be optional but will offer benefits upon account creation on our website.

13. Marketing Plans

We plan to leverage influencers to attract a large audience to our cryptocurrency. Additionally, we will use offline advertising, on-screen advertising, and will keep the public updated on progress.

14. Security

- **Double Security Code:** To ensure user security during interactions with our app or website.
- **High-Level Website Security:** Ensuring robust security measures for our website.
- **Cyberscope:** Utilizing Cyberscope for our cryptocurrency.
- **Certified Random Number :** Ensuring no tampering, with monthly inspections by certified entities.
