Key Features of Tiamat:

Transparency: All jackpot and winning transactions are publicly verifiable on the blockchain, ensuring complete transparency.

Fairness: With a guaranteed high number of weekly winners, 90% of the jackpot amounts are returned as winnings, making the lottery system more rewarding and equitable.

Utility: TMT is used for participating in weekly lotteries, filling jackpots, and retrieving winnings, driving significant weekly trading volume and balanced market demand.

Innovation: Our future plans include developing our own blockchain, creating a proprietary wallet, and launching an exchange platform to enhance TMT's utility and value.

Security: Robust security measures, including easy-to-complete Know Your Customer (KYC) and Anti-Money Laundering (AML) protocols, ensure a safe and compliant environment for all users.

Sustainability: Operating on the Solana blockchain, Tiamat processes a large number of transactions efficiently while minimizing its carbon footprint.

Join us in revolutionizing the lottery experience with Tiamat, where transparency, fairness, and innovation come together to create a truly groundbreaking platform.
